01

# Background & Motivation

People are having more negative emotions in the context of the COVID-19 pandemic

More than  
Half (56%)

of young adults  
have symptoms of  
anxiety or depression

with **25%**  
contemplating suicide

## Existing Mental Health Concerns

- Mental illnesses such as depression
- Vaccine anxiety
- Dissociation in the pandemic period
- Death/terminal illness of a loved one
- Aggressive behavior/mood changes
- .....

# Freelancing workforce has become an essential pillar of the U.S. economy and the composition also changes

\$1.2

trillion

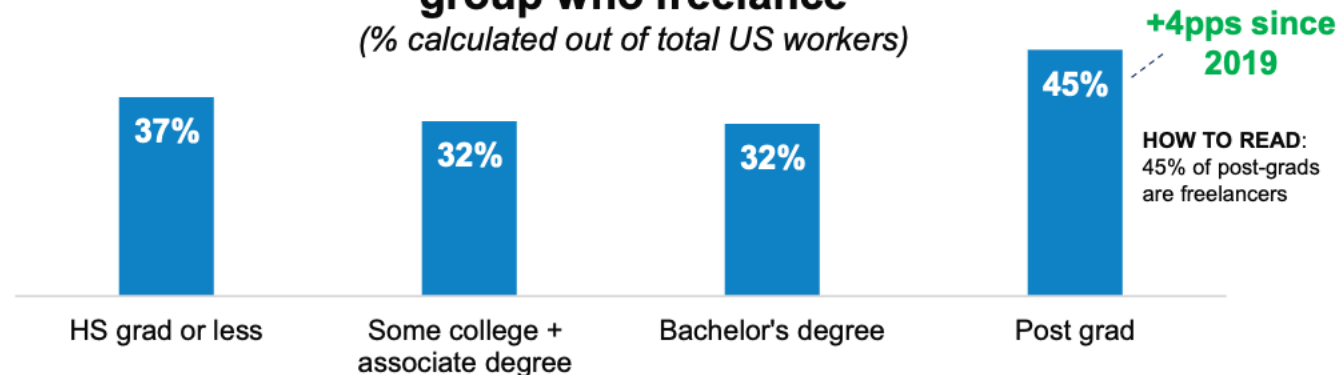

in annual earnings from freelancing

(vs. \$984 billion in annual earnings reported in 2019)

## Post-grads are most likely to freelance

Percentage of workers among each education group who freelance

(% calculated out of total US workers)

## They're becoming more "skilled"

Freelance work typically entails..

(% calculated out of total freelancers)

+5pps since 2019

- Providing skilled services
- Providing unskilled services
- Selling goods
- Other activities
